Office Hours

Thursday 5-8pm, Jones 131
Or by appointment

Group Tutoring

Sunday-Thursday, 5-8pm Jones 131

Welcome to Math 132 Lab! This lab is designed to be an opportunity for discussion of the material presented in lecture and as chance to ask questions about assignments and related material. Lab sessions will be based on student questions, so please come prepared (practice problems, homework problems, quizzes, and tests are all fair game). Additionally, quizzes will be given during most labs.

The math department holds group tutoring sessions Sunday through Thursday from 5pm to 8pm. Each session, two graduate students are available to answer questions. They are not allowed to give out answers for graded material, but are still quite helpful. Additional assistance can also be received during Professor Day's office hours or by arranging an appointment with me. I can be reached by e-mail at apcarp@wm.edu. While I check my mail regularly, please leave enough time for a response. I can’t guarantee a timely response to last minute messages.

Any questions?
