

Math 111 Calculus Lab Syllabus

Lab Instructor: Alex Atkins
Lab Section: 05

e-mail: abatkins@email.wm.edu

Lab Time and Location: Thursday's 8:30 - 9:20, Small 110

Calculus Lab Assignments: Jones 103 Box

Attendance: This weekly Calculus Lab is the 4th hour of this course. Your presence is required at each lab. Each lab is a graded assignment. Although only a subset of lab problems might be graded, *work each lab in its entirety*. These scores compose at least 15% of your final Calculus grade.

Lab Assignments: The lab assignments are due Wednesday at 12pm (noon) unless otherwise noted. Assignments will be accepted until 5pm Thursday with a 2 point penalty. Any assignments submitted after this will not be accepted. Labs should be turned in to the Jones 103 Box. **Please staple and write your lab section!**

Grading: The TA will grade each lab, sometimes selecting a subset of problems to score. Each problem is worth 10 points. These scores are then averaged and given to your lecture instructor.

Honor Code: The work you turn in should be your own and not copied from another source. You may use your textbook, WebAssign, and both lecture and lab notes but no other assistance.

* You are encouraged to use the **free calculus tutoring:**

Jones 112 Sunday – Thursday; 5 to 8 pm
