

## Math 111- 01 Lab Syllabus - Spring 2019

**Lab Instructor:** Becca Rousseau

**e-mail:** [rkrousseau@email.wm.edu](mailto:rkrousseau@email.wm.edu)

**Lab Time and Location:** Thursday 8:30 - 9:20 am, Morton 37

**Attendance:** This weekly Calculus Lab is the 4th hour of this course. Your presence is required at each lab. Each lab is a graded assignment. These scores compose 15% of your final Calculus grade.

**Lab Assignments:** Each lab lesson is accompanied by an assignment. Lab assignments are due at the start of the next lab, unless otherwise noted. Assignments will be accepted up to one day late (Fri by 3pm) with a *2 point penalty*. Any assignments submitted after this will not be accepted. Please let me know if you are turning in a late lab, so I know to look for your assignment. In the case of illness or excused absence, please reach out to me in lab or by email, and we can discuss how to get your lab in on time.

\*Please print out each lab from the Math 111 Website beforehand and bring it to class\* (You can find labs at the link below or by googling WM Math 111):

<https://www.wm.edu/as/mathematics/undergrad/wheretostart/math111/index.php>

**Grading:** The TA will grade each lab. These scores are then averaged and given to your instructor.

**Honor Code:** The work you turn in should be your own and not copied from another source. You may use your textbook, WebAssign and both lecture and lab notes but no other assistance.

**Mailbox:** My box is located on the door of Jones 103. If you need to turn anything in here, please include your course section (Math 111- 01) or professor and the time/date submitted.

**Tutoring:** You are *strongly* encouraged to use the FREE calculus tutoring center

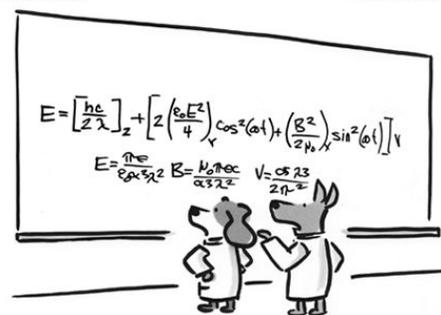

Location: Jones 112

Time: Sunday - Thursday, 5-8 pm

\*I will be at the tutoring center every Wednesday\*
